Intimations. PROSPECTUS OF THE FOOCHOW DOCK be at once formed to undertake the working of CAPITAL \$200,000, IN 2,000 SHARES OF \$100 EACH. \$50 per Share to be paid on allotment.

,, 3 montheafter allotment.

Present Directors,-M. BE BARON DE MERITERS, Commissioner of upon the Foothow Dock, report as follows, With Power to add Three to their Number. General Agents, pro tem. Measus John Forsten & Co., Poochow.

Superintendent,the condition of the Bock and Premises, from MR. JOHN FORSTER the Dock at the Pa- | and all necessaries for the requirements of the gods Anchorage, known as the Foocham Dack, Duck,

with the property and machinery attached, valued together at \$130,000, and also the Tug-Steamer Woosung, valued at \$10,000. The remaining \$60,000 will be used for the purchases of stock and materials (of which a considerable quantity is on hand, and is offered at welneedation of the appears Committee for working be used. price); for the improvement of the establish-

By arrangement with MR. JOHN FORSTER. the Company will take over the property to be In Bombay by :nurchased from him, from the 1st January of the present year; from which date all posits on the business are to accrue to them, while he shall receive interest at the rate of I per cent. per annum on the amount of purchase muney, l notil paid up. The Company will be managed by a Board of Fire Directors, two of whom are non elected, with the power to add three more to

their number. Three will retire annually, but are eligible for re-election. The funds of the Company will be entirely under the control of the Boards A statement of accounts will be submitted to a Meeting of the Resident Shareholders, to b held annually, when a dividend will be declared. Applications for Shares, in the annexed form, to be addressed to Messus. John Forsten & Co., Forchow, who will act as General Agents nutil all are allotted.

An application for Shares, followed by an a lotment thereupon, will constitute the applicont a Shareholder in the Company. The deed of settlement will be duly prepared and copies will be furnished to the Sharcholders when ready.

FORM OF APPLICATION FOR SHARES.

To the Directors of the FOOCHOW DOCK COMPANY. GENTLEMEN - request you to allot to Shares of \$100 cack in the above Company ngree to accept such Shares or any less number you may allot to und to pay the Calls thereon; and _____ anthorize you to name on the Register of Shareholders for the Shares alloted.

Your obedient Servant Full Name and Address 7 of the Applicant

Preschow, 7th March, 1870. Report on the Projected Dock Scheme. FOOCHOW, 12th February, 1870. When it was lately proposed by Mr. John Forster to transfer his interest in the Dock at Pagods Anchorage to a public company, the community of Foothow, taking the proposal into consideration, appointed a committee of five geatlemen, for the purpose of investigating The merits of the scheme, and of reporting to the community the result of their investigations. The Committee so appointed has had two objects in view; let, to ascertain the actual condition of the Dock; 2nd, to consider after a. cajeful examination of the books if the scheme-

were likely to prove a remunerative one. As far as the first point is concerned, the com-printed is satisfied that the Dock at Pagoda Anchorage is in excellent order and full worth the value placed upon it. Two competent men painterested in the schome, have at the request of the committee, surveyed the Dock thoroughly, viz.: Captain Bisbee, Divisional Inspector of the Maritime Customs, and Captain Shaw, one of the Surveyors established at the Anchorage whose report will be found appended, Captain Davidson, Commander H. M. S. Hornet, bas also kindly allowed the use of his name in support of the statement of the above-camed gentlemen, having himself taken the trouble to make a careful survey of the property. The Committee has therefore no hesitation in endorsing the con-

clusion arrived at by the surveyors, and in declaring themselves satisfied on the first point Regarding the second point, a sub-committee composed of Messra. Master and Dalrymple lias een deputed to examine the books, and to report to what extent they might find it practieable to reduce the actual expenses of the Dock. Their report shows that during the two years ending 30th to Jone last, over which their examination extended, all the coals used for the steamer and, at the Dock had been bought at Foodbow. The Committee therefore may with confidence affirm that a considerable reduction might be effected under that head They would have the came opinion to give regarding the nurchase of other materials necessary for the working of the Bock, which, it appears from the books, were nearly all pur chased in Hongkong and on the snot, at probable average cost of at least 15 to 20 pe cent, above the cost of direct importation. A regards calaries, &c., of the staff, the Committe

is satisfied that the reduced scale sanctions by the Superintendent, Captain J. C. Skey, can be carried out without impairing the elliciency of the concern. The Committee is therefore of opinion, that i would not be unreasonable for the shareholders to expect a Dividend of from 15 to 18 per cent. on their investment; and as the capabilities of the Dock become better known, an even larger return might be looked for. Should the scheme meet with sufficient sup-

shares of \$100 each, of which \$50 to be called up at once, a further \$25 at the expiration of three months, and the remaining \$25 at the and of six months. With this capital the actual establishment might be improved, a second and strong Tag-boat in ght be purchased and a balance of between \$30,009 to \$35,000 would still remain to work the Dock. undertaking the Towage of the Port. The problem shown of the working of the steamer Woosang during the past two years, speaks for itself; and the purchase of a second Tue-boat. would, it is believed, go far to secure the mono-

port, it is proposed to form a company with a

total capital of \$200,000, to be mised in 2,000

Many other improvements which might be

that above proposed by which a company might creditable to those who make use of so weak less checked by a thoroughly competent Down Piott

worth while observing that the two branches

of the proposition pullify one another. When

Everything is progressing natisfactorily.

THE LATE MR. ANSON BURLINGAME The steamers China and Glenartney, which Again and again is the chronicler of passing events called to record the death of men who have filled such a large space in the moving paneragia of the world's progress, that their wing out from life seems like a great calamity. The world moves on just the same, although the sudden extinction of a bright light a nds a thrill of sorrow all along the chords of internaseems as if the machinery of that department in which the departed publicist was engaged

must round still. Such a death as this, is that of Anson Burlingame, whose demise is annonneed to have occurred at the Russian capital £19,625,000 on the 23rd of February, 1870. To busy men. filled with heroic desire to achieve, to do, or to some the prizes which the world offers, such an announcement comes like a sail warning: It tells us how full of futilities, disappointments and unfinished plans life is; and it reminds all men that cank, station, usofulness and incomndeted schemes for the world's betterment, or for the selfish sake of one's own ambitions, are all alike inoffectual excuses for denial or, delay when the fateful hour has struck. In the decause of Burlinging there is a deeper tone of sadness, because Death has here suniten down one who was in the midst of his years, honors,

labors and useful services. The le-son of mertalify is seldout in the forcibly presented. Anson Builingame was born at New Berlin, Shenango county, New York, in November, 822; consequently he was but a little more than forty seven years of age at the time of his death. His early life was spent on the frontier. as he was attached to a Countriesion appointed during the administration of President Van Buren, to conclude to mies on the part of the United States with several Indian tribes of the 270,500,000 North-western Torritories Later, he began a course of sindy at the Branch University of Michigan, but his family removing to Masanchusetts, he entered Harvard College, where his education was completed. He commenced the practice of law in Boston, and was elected to the State Senate from Sulfolk county in 1852; and in 1853, be was a member of the State Convention of Massachusetts. In 1855

and served successively in the Thirty-fourth Thirty-lifth and Thirty-sixth Congresses. While in the House of Representatives he With Bill (F Irish Land Bill) delate was distinguished himself as an able delater, a His ardent temperament and zealous defence of the free principles which he esponsed frequently involved him in complications with the coaft; nical Council for defining the dognat of infalli. leaders of the pro-shivery party in Congress: but he always acquitted bimself in such a manner as to command the respect of all true men. In 1852 he was appointed by President Lincoln as Minister to Austria. As a Repre-H. M. Indian steam troopeding Malabar [Fleft] sentative in Congress, he had previously expressed himself with great freedom on the famous Kostza caso and upon Austrica tyrainy generally, and the Austrian Government baving

would not be received at the Court of Vienna, his commission was revoked: James Lothrop Motley was sent to Vienna and Burlingame was sent to represent the United States at Pakin, During the rebellion, Burlingame was of great service to his country in various ways, though he was far from the sent of our difficulties. His administration of affairs entrusted to bim in China was wise, humane, cautious and successful. The world was astonished when it nishes no grounds for the distribution of autho- said it was intended to entrust the construction learned that on the 27th of November, 1867, merits, and the charge of hias is generally only made when it is but too clear that no other answer can be given.

But now the whole intelligent world will leave for the above place about 24 hours is filled with the renown of inquiries into the after the arrival of the next English Blail. structure of the sun, the past history of its system, the storms in its atmosphere, the P. & O. S. N. Co.'s Office. nature of its nebulous appendage, and even into the exact figures of its distance from the earth FOR SWATOW, AMOY, AND FOOUHOW-- a question, however, on which no important addition is expected to what is now known, until the next transit of Venus, December Sth. The other sciences have been no less active of late, although some of them bare attained only results of less general interest. In chemistry there has been progress made in improving the nomenclature, and in the methods of exact analysis. Many of its new practical applications, too, have been most promising ; none more so than the improvements in the manufacture of iron and steel from the ore, and in obtaining. illuminating gas. In zoology and palmontology there has been more zeal shown in Germany than here; and, although there bove been no new works forming an era in these sciences, yet aderain popular understanding and love of them has certainly been brought about in that country, where the people gather by thousands I HE A 1 North German Ship whenever such a man as Virchow or Haseked or Yogt promises a scientific lecture on questions which but a few years ago, were regarded as Rathgons, Master, will meet with quick disthe exclusive concern of a few specially learned patch for the above port. Theolose of the year has been marked ! minking public the results of an expedition, sent out by the British Government, to explore, by dredging, the depths of the sea. This attempt line been for more encocessful than its projectors dared to hope; and has resulted i meaning the existence of life in a great variety of forms at depths which were supposed to be doministrably an utter waste. Eight, at least, For Freight or Passage, apply to of the forms found in great depths are species of which were known as tertlary fessils, hat were supposed to have been entired for thousands of ages. We have recently had occasion to comment on the crucial importance of these results, in their hearing upon many unsettled questions of geology and zoology; but they are too Urriz, Master, will have immediate disputed as recent to allow any judgment to hig formed as above yet of the influence they will ultimately have in modifying the doctrines of "geological time," or those concerning the permanence of One lesson will be learned from the triumphs of THE Ship mind to which we myo referred, as from other like them which have been achieved in the same time; that no problem which can be distinctly will have disputely for the above port. set before human science is to be despaired of. There is not within the reach of imagination an inquiry which concerns the laws of the visible world, that seems more hopoless to day than some of those so recently and so satisfactoilly solved. A COLD-STEAM GUARD. -An umbrella. The budy of Rossini was so badly embalmed above port. that it can no longer be recognized People who lisp do not believe in young alies. Every miss is a myth to them, Hrigham Young is indeed a pillar of Salt Lake. His idea of a woman is—lots. Nor so Dusty .- Professor Tyndall's dust is taken in impalpably. Tea-dust, on the contrary, The Saco (Me.) Independent says a tin box similar to a common blacking box, filled with for the above port. powder and poreussion caps, and fustened together with a lead band, was found the other day in a cargo of coal which was sent to a firm n that city. Had it found its way to a store it would undoubtedly have caused a lively com-COMMERCIAL INTELLIGENCE. HONGKONG, TUESDAY EVENING. The drug market has kept quiet throughout the day. The following are the roling prices: -New Patnu, \$515 to \$5101, cosh and on time, little doing; New Bonares, \$490 to \$491f, no minal; Old Patus, \$5371, nominal; Old Banarea, \$525, nominal. In Raw Cotton, the following sales have been ${f made:}{-59}$ bales Calcurta Cotton at ${f $21.25}$ per picul, 172 bales at \$21.50, 30 bales at \$21.25. Captain Macres, will have quick despatch for 100 bales at \$21 per picul; total 361 bales. Business in Shares maintaine its activity. The following sales are noted i-Old Bank Shares, 25 at 36 premium; Stemmboat, 117 at / 34 premium cash, and 37 to 374 premium for the end of June; Honghong Fire, 1 at \$195 premum eash, and 10 at \$190 for one month; Victoria Fire, 5 at \$20 premium; and China and Japan Marine, 10 at Tle, 10 premium. The Querland Mail of the 17th February, says that the steamer Erl King sailed on tho 12th idem for Ohina, via Suez Canal. This vessel has a freight of upwards of £100,000 in Mexican dollars, being the first shipment of bullion to the East by the new route. The rate of freight paid was is. 2d. per cent, and FITHE American ship the insurance 22s. 6d. per cent. The state of the Tea market in San Francisco was thus reported on the 25th February :- Captain Batchelder, will have quick disputch 'Imports from Jan, 1st to Feb. 15th : China, for the above port, phys 1,333; Japan, phys 3,431. The Japan, upon her last trip, added 4,050 phys. to our stores. Thus far the advices of an advance in the Yokohama market has had no nercentible effect up in prices here, except to stiffen holders somewhat, and prepare for a rise when the spring demand becomes summed quickened. locupation for many Franch people of the lower borrgeois class. Malame Reynard, whose father had been puter, had learned it in her younger days, and since taught Francoise to write "a lawyer-like hand." It appears that a nephew of the unfortunate stepfather was acting in menic pieces at the Châtelet, and was, an enthneisst in his art. He, observing the advantage which young Francoise possessed—her beauty, grace of movement, and freshness—proposed that she should take leasure for the liallet. This shocked the mother, who refused her consent; but the heroic little girl, though shuddering at the prospect, was so carnest in favour of the plan, that she at last won Malame Reynard's co sent. The girl saw the difficulties her mother had in providing means for her subsistence and for the support of the unfortunate invalid at the asylum, and was ambitious only to earn enough to add in supporting them. Her cousin was able to be of great assistance; he engaged a master at less than half-prize, to be paid from the liture carnings of Francoise; and when she herame proficient, which she did vary rapidly (owing to her zeal and satural quickness), here procured her a good silvation at one of the smaller theatrnes, where she at first, of course, appeared only encorper. She rose quickly, had the satisfaction of carrying hume a goodly number of frances each week, and of seeing both her mother and her poor imbecile stepfather supplied with many comforts of which Paul spoke, when she was so agituted and shed tara, was the first in which she had been called on to appear as a prominent figure in the scene, and to dress with that voluptuous abandon which part was the first in which she had been called on to appear as a prominent figure in the scene, and to dress with that voluptuous abandon which particle of papers, most flexity wrapped up and tied; and at intervals, when she was not wants in the stage, she was gloscyted to carry a life of the latter of the stage, she was gloscyted to carry a life of the latter of the stage, she was s	nd Wellington Street, at present occupied by Iceses.
